SOFT SKILLS

- Problem-Solving:** Ability to identify and efficiently resolve technical challenges.
- Communication:** Skill in collaborating with diverse teams and explaining technical concepts.
- Continuous Learning:** Quick adaptation to new technologies and work environments.

RESUME

I am a full-stack web developer passionate about building comprehensive applications and scalable solutions. My experience includes designing intuitive interfaces with React and Angular, as well as developing robust backends using NestJS, Node.js, and databases like MySQL and MongoDB. I seek to contribute to innovative projects where my passion for problem-solving and learning new technologies can add value.

WORK EXPERIENCE

External Consultant | GTS Hispanic

06/2023

- Development of the backend for a hospitality management application aimed at small and medium-sized hotels, implementing scalable and secure APIs with NestJS, and collaborating with multidisciplinary teams to optimize performance and meet technical requirements.

Freelancer | Workana, Turing

06/2023

- Web application development with React and NestJS, general management and administration of web pages with WordPress, WooCommerce, and Shopify.

Web Developer | Airtrace Technologies SL

02/2023

- Created a responsive landing page using React, HTML, CSS, and JavaScript. Collaborated in decision-making on the website's design, content, and UX.
